

Stand A1000

www.chinacompositesexpo.com

15th to 17th September 2010

Visit us at the China International Composites Industrial Technical Expo. in Beijing, from September 15th to 17th, 2010 (China National Convention Center).

The times are long gone, when the EC group was only known for their top performance as a manufacturer of honeycomb core materials.

Today EC stands for optimum solutions with advanced composites. In all stages of your business process – from design over production to product control – EC can comprehensively support you.

Our production of high-class interiors will inspire you.

We look forward to your visit.
