

www.innotrans.de

21st to 24th September 2010

Visit us at the Innotrans Show 2010 in Berlin from 21. to 24. September.

The times are long gone, when the EC group was only known for their top performance as a manufacturer of honeycomb core materials.

Today EC stands for optimum solutions with advanced composites. In all stages of your business process – from design over production to product control – EC can comprehensively support you.

We look forward to your visit.
