**The EURO-COMPOSITES® -  
Groupe fulfills fire  
protection specifications  
for the rail vehicle  
component construction**

In March 2011, EURO-COMPOSITES® Groupe passed the testing of products according to EN45545-2 (fire protection test) for rail vehicle components.

For the components bonded by thermoset EC® fulfills the hazard Level (HL3) for the product groups IN1, IN10A, IN10B and IN16. This also obtains components bonded with polyolefines.

The testing was realized by the „Rail System Testing GmbH“ in Henningsdorf, Germany.
