---

**EC Corp. earns Boeing  
D1-4426 and BAC 5317  
approval**

Boeing Corp. has approved EURO-COMPOSITES Corp., Virginia as processor of core details.

The approval, which includes the processes of septum application, splicing, potting, heat-forming, and machining, enables EURO-COMPOSITES Corp. to quote on parts such as flap-track fairings, pressure bulkheads, horizontal and vertical stabilizers, winglets and other complex structures.

Boeing has approved EURO-COMPOSITES Corp., Virginia per D1-4426 for Quality Systems.

EURO-COMPOSITES's quality system has also earned NADCAP merit in 2008.

Culpeper, August 2008
