

# HYGIENE CABIN EQUIPMENT

EC Group, a global player in the field of high quality composite materials, offers you full support for cabin interior retrofit and upgrade solutions to comply with new hygiene recommendations. Please do not hesitate to get in contact with your local sales contact for any request.

EC's Design Organisation EASA.21J.661 provides you the following products including complete Minor Change documentation and adjustments to your needs.

## MINOR CHANGE DISPENSER DUO

Complete your in-flight hygiene items with our dispenser duo or trio, possible to be installed in lavatories, galley or boarding area, customized to your needs.

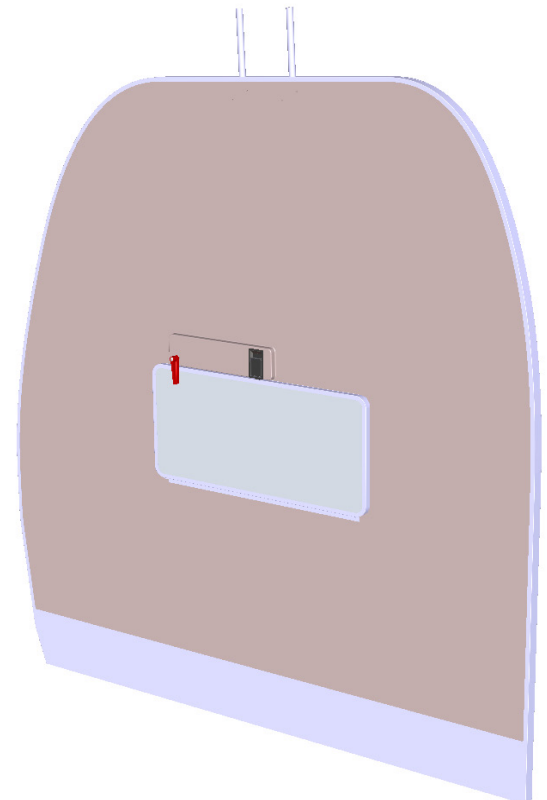

- Adjustable for every A/C type
- Customized lettering
- Also available as triple dispenser (e.g. for hand lotion)
- Sample design for screw fastening, adhesive solution also available upon request

## PARTITION WITH SHELF FOR HYGIENE ITEMS

Make the hygiene precautions for your flight attendants easier: Our customized partition allows extending a shelf space for hygiene or other items.

- Dimensions and design according to customer needs
- Honeycomb core manufactured in-house
- Flexible shelf space with double-lock
- Partition with decor foil, customized lettering etc.
- Attachment system following customer requests
- For boarding area and class dividers
- Solution is also applicable to existing partitions (shelf space only with/without partition refurbishment)

## HYGIENE ITEM BOX FOR OVERHEAD BIN

Upgrade your overhead bins with our lightweight hygiene box to store items such as sanitizer, masks, paper tissues and gloves.

- Standard size adjusted to carry-on luggage dimensions or following customer demands
- Fixing in overhead bin with clip system or Velcro strips
- Roller shutter system available, based on our lightweight honeycomb core
